The album received widespread acclaim including ***Kerrang!*** who said, "The heaviest and catchiest thing the Washingtonians have unleashed--and the most moving, too." Allmusic, gave the LP 4 out of 5 stars, commenting, "...the 11-track set offers up another relentless mix of soaring melodies and punishing djent grooves that employ the usual arsenal of instrumentation, with the additions of Moog synthesizer and a full-on orchestra.

Based in Washington, D.C., Periphery are considered one of the pioneers of the djent movement within progressive metal. **Periphery** released their self-titled debut in 2010 garnering respect among fans and critics worldwide for pushing the boundaries of progressive metal with their technically dizzying sound. The band's 2012 *Periphery II: This Time It's Personal*, and 2015 double album *Juggernaut: Alpha* and *Juggernaut: Omega* earned stellar reviews from critics, both landing on the Top 40 U.S. Billboard album chart. The band's current line-up consists of Misha Mansoor (guitar), Jake Bowen (guitar), Matt Halpern (drums), Spencer Sotelo (vocals) and Mark Holcomb (guitar).
