"Legend of the Seagullmen" is the song of an ancient power: a time of the Seagullgod King. His legend has been transmitted over generations spanning 400 thousand years, resulting in this furious ripping anthem. It takes at least four guitar players and an army of musicians to unlock the glory and when the blistering progressions find the pounding beat, you'll be immersed in the scriptures of a battle torn land."
- David "The Doctor" Dreyer

This is the third single to be unveiled from the band's highly anticipated LP available to pre-order now on vinyl, CD and digitally [HERE](#). (Limited edition bundles include drumsticks hand-signed by Danny Carey, along with band jewelry.)

Legend of the Seagullmen is comprised of Tool's **Danny Carey** on drums, Mastodon's **Brent Hinds** on guitar, director **Jimmy Hayward** (Jonah Hex) on guitar, **David 'The Doctor' Dreyer** on vocals, Zappa Meets Zappa's **Peter Griffin** on bass, and **Chris DiGiovanni** on synth, alongside the help of a few more rippers!

Joining forces to make cinematic psychedelic rock, the **Seagullmen** sing of ship wrecks and giant mutant squid, crafting conceptual rock 'n' roll hymns of epic proportions on their debut full-length.
