“...danceable indie pop...” – *Brooklyn Vegan*

“...alt-rock/punky vibe going on that just makes you want to blast her album really loud.” – *Buzznet*

“has echoes of bands like The Breeders and other 90s female fronted alternative acts in the scratchy texture of her voice and the reverb-fueled jangle of her guitars” – *Baeble*

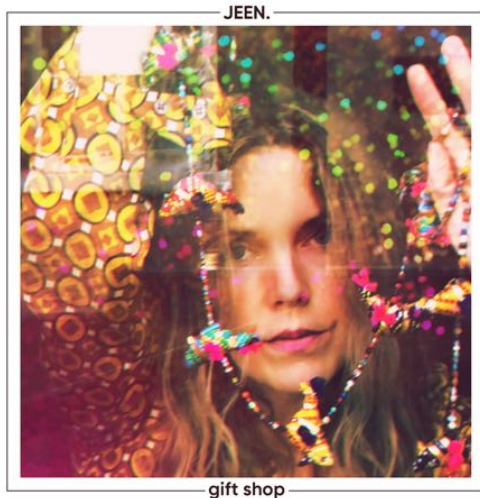

(Toronto, ON – August 10, 2018) – Canadian indie alt-pop songstress **Jeen** debuts her new track “Medicate Me” via [Billboard](#). This is the second single from her much anticipated new LP ***Gift Shop*** to be released on **September 14, 2018** via **Red Brick Songs** and is available to purchase and stream worldwide today via DSPs [HERE](#). See below for the full tracklist and LP artwork.

Jeen recently premiered a performance video for her lead single “**Any Moment**” via **Exclaim!** [HERE](#). The track debuted on the Alternative Radio charts last week garnering the #10 Top Gainer spot. *Gift Shop* features anthemic reverb-fueled indie-pop and is produced by Jeen and mixed by renowned Toronto musician/producer **Ian Blurton** who plays guitar on “Any Moment” and also co-produced the single. The ridiculously catchy track is available via DSPs [HERE](#).

An established and successful songwriter with a penchant for crafting hooky, sync-worthy songs, Jeen became the vocalist and co-writer for **Cookie Duster**, the side project from Brendan Canning (Broken Social Scene) and appears on their 2012 album *When Flying Was Easy*. In 2014, Jeen released her debut solo LP ***Tourist*** which immediately got picked up by **NPR’s** beloved and influential show ***All Songs Considered*** who featured lead single “Everywhere I Go” and highlighted Jeen in its [9 Creative Musicians You Should Know](#) radio episode in

2015. The attention landed her a feature showcase slot at [TIFF's 2015 Canadian Music Café](#) extensively broadening her reach in a sync market she had already well established herself in. Jeen's 2016 sophomore LP **Modern Life** continued to build on her debut success with *Consequence of Sound* calling it, '...catchy, anthemic indie pop'. Both albums resulted in significant sync success for Jeen with song placements in various commercials (Google, Panasonic, Estée Lauder, Kraft, BlackBerry, KIA, Rogers, MasterCard, Molson) as well as notable movies and televisions shows (Cook Off, Republic of Doyle, Instant Star, Ruby Gloom, Deglassi, Killjoys, Hockey Wives, Workin' Moms, MTV Catfish, MTV Are You the One).

If her songwriting resume isn't impressive enough, Jeen has also written for many recording artists including Great Big Sea, Serena Ryder, Res, Hawksley Workman, Brendan Canning, FUWA FUWA (j-pop) and Martin "Doc" McKinney. With *Gift Shop*, Jeen has honed her unique, vintage sound creating her finest work to date.
