Says Andrew Roach, Director of Operations, "Record Store Day comes around once a year and we're always so excited to be a part of it. The whole Dine Alone crew grew up around music, working in record stores, being in bands, etc, and the resurgence of vinyl over the last few years is something we're proud to be part of. We're especially keen this RSD to open up the venue space in our record store for the first time with RSD Canada Ambassadors, [The Trews](#)."

One of the top independent labels boasting major industry awards and accolades, Dine Alone opened its doors to the public for the first time for RSD on April 21, resulting in [long line-ups around the block](#), and a nod from *NOW Magazine* as one of the five best Record Store Day events of 2018.
