(June 7, 2019 – Toronto, ON) – Toronto-based rocker **Skye Wallace** releases her self-titled album **TODAY**. Purchase + stream the album [HERE](#). Her Toronto release show is tomorrow at **Horseshoe Tavern**. Skye has announced some additional tour dates including summer festivals. See below for full routing.

Skye had this to say about her inspiration for the album:

"This album is the sound I've been after, actualized. As an artist I hope to always be growing, but the sound that Devon Loughheed and I found on this record is something that I am deeply proud of and excited to share. The decision to have a self-titled album was a testament to that excitement and sense of achievement. This album is loud and charged and emotional. The stories that inspired the album were given life; their presence behind each song breathed heart and soul and fire into the album as a whole. I'm thrilled to let this little baby out into the world."

Wallace's upcoming album embodies Canadiana. From living on BC's west coast to spending time at residencies from Norris Point, Newfoundland to Dawson City, Yukon, the Toronto-based artist has been inspired by every corner of the country. She plans on touring extensively starting in the spring and participating in many festivals over the summer, more details to come.

But it's not just geography that informs her sound – her lyrics are often based on Canadian history, sharing the struggles and stories of the past. This doesn't result in nostalgic sounding music – her songs may have roots in folk, but they branch out into so much more – sometimes moving, sometimes frenetic, sometimes straight-up unrestrained. With a voice that effortlessly floats between sultry purrs to powerful yelps, and a band that will take you from somber lows to raucous highs, Skye's live show is a force to be reckoned with and a residency at Dakota in Toronto last Fall solidified that garnering much industry buzz.
